Re: **Response of The Dow Chemical Company (TDCC) to United States
Environmental Protection Agency's Request for Information – Safety Light
Corporation Site, Bloomsburg, Pennsylvania.**

Dear Mr. Steinmetz:

On January 9, 2006, TDCC submitted a Response to the Information Request on the above referenced site. In that response, TDCC stated that it was conducting an on-going investigation and would notify EPA should any further responsive information be discovered.

TDCC has completed its internal investigation with regard to this matter and has not discovered any additional documents or other information responsive to the original Request. Therefore, TDCC will not be supplementing its response at this time.

Please feel free to contact me if you have any questions.
